An agreement has practically been resched in the London dock trouble, and the men will probably go to work on Monday. Australia continues to pour in contributions. Boulanger has announced himself as a candidate at the coming French elections.

LONDON, September 13 .- A conference was held to-day between Cardinal Manning, on behalf of the striking dock laborers, and the directors of the dock companies. The Cardinal submitted to the directors definite proposals from the strikers for the settlement of the wage question.

The joint committee appointed to consider the proposals of the strikers have agreed that the wages demanded by the dock laborers shall be conceded, the advance to take effect November 4. The Lord Mayor, at a conference with the directors of the dock companies to-day, gave assurance that the men were now ready to resume work on

AUSTRALIA'S GENEROSITY. The subscription received to-day from Australia for the strikers' fund amounted to £4,523. The Daily Telegraph, commenting on the strike, says: "It is not too much to say that £2,000,000 has been squandered, while there are not wanting prophets who declare that the port of London will never recover its former prosperity. We scarcely think that, and while, if the casual laborer is well out and replaced by a higher and more organized set of workers, something will have been done toward the evolution of the fittest."

Mr. Burns went at midnight to the Surrey commercial docks to endeavor to induce the men not to hinder a general reconciliation to-day. He urged upon them that they could fight out the disputed points afterward in an amicable manner.

A Sensationa, Murder in New York That is Almost Identical.

FATAL END TO A BUSINESS DISPUTE.

A Controversy Over a Valuable Patent That Causes Blood to Flow.

F. W. Gesswein, a wealthy New York manufacturer and importer, was yesterday shot and instantly killed by Christian Deyhle. A quarrel concerning a patent was the cause of the deed. The case is in many respects similar to the shooting of

Natcher in Pittsburg. NEW YORK, September 13 .- F. W. Gesswein, the well-known millionaire importer and manufacturer of jeweler's tools and supplies, was ruthlessly shot down and killed by Christian Deyhle this morning. The shooting took place about 10:45 o'clock in Mr. Gesswein's private office.

It was the result of a business quarrel over a reflector, which Devhle claimed he had patented. The two men had been at law about the patent, and Deyhle had been been beaten in his suit. He had been accustomed to call upon Mr. Gesswein frequently at his store, in John street, but after his defeat in the courts he discontinued his visits.

Nothing had been seen of him for the past six months until 9 o'clock this morning, when Devhle walked into Gesswein's store and inquired for the proprietor. He was in-formed that Mr. Gesswein had not arrived, but was expected shortly. When, half an Deyhle gave a nod of recognition, arose, and approaching him, said that he came on pri-

wate business.

"All right," replied Gesawein, "come into my office," Thereupon the two men went up stairs into the little private office on the second floor, where the tragedy oc-curred. They were alone, with the door closed. No one knows exactly what oc-curred. Mr. Charles F. Koester, one of the clerks in the store, has his desk right next the thin board partition which separates Mr. Gesswein's office from the remainder of the room, and oithough he could not see what was done, he could hear almost everything that was said.

DEMANDED MONEY.

He heard loud talking between the two men, but did not think it necessary to in-teriere, He heard Mr. Deyhle demand money from his employer, and when the latter refused there was a loud report. He then rushed into the room Gesswein stag-gered toward the lounge, but before he could reach it fell to the floor and expired immediately, uttering only a groan.

Deyhle was standing in the middle of the

floor with a smoking revolver in his hand. Koester seized him, at the same time snatching the revolver, and calling for help. In an instant there were half a dozen clerks from down stairs at his side. Someone went tor an officer while Koester held Deyhle, who uttered not a word, but appeared as cool and collected as when he entered the store two hours earlier.

Coroner Schultze was summoned and took charge of the remains. The prisoner is an old German of 69 years. He was shabbily dressed in gray, and had a small, dirty-looking value in which were several small tin boxes containing substances which the police said looked like poisonous matter. He had only a few cents in his pocket.

HIS REASON FOR THE DEED. "Why did you kill Mr. Gesswein?" he

"He has ruined me. I invented and had patented a reflector for jewelers, made samples myself and sold them to Gesswein at \$1 apiece. I lived pretty well on that for a time, but he soon copied my reflectors himself and I was unable to get along. So I sued him in the United States Court before Judge Brown, who decided against me. Three weeks ago I wrote a letter in German to Mr. Gesswein, asking him for money. He answered me in the same language that I would never get any from him, the Court having decided in his favor.

"Then I decided to leave Philadelphia, where I was living with two of my sisters, and come to New York and speak myself to that man. I had no money to go into business again, no money to enter the Home for Aged People of Philadelphia, and I could remain a burden to my sisters no longer When I entered Gesswein's store this morning he had not arrived. I waited for him He arrived at last and bid me come upstairs in his office. When Mr. Gesswein refused positively my request for \$500 I drew my revolver and quickly fired at him without leaving the chair. I was occupying by his left side."

AT ATLANTIC CITY.

The Storm-Swept Resort Rapidly Regaining Its Normal Condition.

ATLANTIC CITY, N. J., September 13 .-The sun came out bright this afternoon and many people took advantage of the fact to take in the sights along the beach front. A large number of workare engaged in clearing away the debris and this storm swept city is rapidly getting to its normal condition. The German ship, Geistlemunde, which went ashore last night, is high and dry on the beach about 500 yards southwest of the West Jersey Excursion House. Thousands of people visited the spot to-day. Captain Lenthe, her commander, tells this story of the loss of his vessel:

"On Wednesday, our fifty-seventh day out, we lost our bearings. That evening we hailed a New York steamer and were informed that we were about 25 miles from Absecon light, but within an hour thereafter we struck. Our signal of distress was answered by what I supposed to be a pilot boat light and I headed for it."

The water has almost entirely subsided, and the bed of the Camden and Atlantic Railroad is clear. Until this morning no definite idea of the damage the West Jersey road could be gained, but as the mist clears away and the spray disappears, it is seen that the road bed is in terrible shape. Possibly the Reading Railroad, taking the entire stretch into consideration, is the most completely wrecked, but as far as the work of repairs is concerned the West Jersey will as much attention. The Jersey officials despatched heavy repair trains to the scene of disaster yesterday, and will push the necessary repairs to a speedy completion. The Reading road has also several hundred men actively at work on the Meadows.

MONMOUTH BEACH.

It Will Require at Least \$150,000 to Re-

pair the Damage. MONMOUTH BEACH, N. J., September 13,-Thousands of persons came here to-day to see what damage had been wrought by the storm. Big gangs of men were at work removing furniture from some of the cottages, and bracing up the twisted and shattered bulkheads. The Episcopal Church of St. Peter's, in Galilee, lost part of its bulkhead last night. The sea has torn away a portion of the bulkheading of the cottage of John P. Duncan. The bulkheads of the summer homes of Henry Tuck, D. Sackett Moore and J. A. Scrymser have

gone out to sea.

It will cost at least \$150,000 to repair the damage at Monmouth and Low Moor, formerly Monmouth Beach North.

London Globe.] The unconscious humors of the bench are many, and since they are not wilful, there can be nothing indiscreet in recalling them. Very often these wits in spite of themselves are magistrates, Chairmen of Quarter Sessions and County Court Judges, but occasionally they have been heard at Assizes or in the Chancery and Queen's Bench Courts. MILLIONS INVOLVED. Against Commodore Kittsen's Estate-The Court Decides

the Claim Not Valld. ISPECIAL TELEGRAM TO THE DISPATCH.1 Sr. PAUL, September 13 .- After nine rears of litigation, at a cost of nearly \$1,000,000 on both sides, a decision was rendered to-day by Judge Brewer, of the United States Circuit Court, which settles a lawsuit involving \$5,000,000, and embracing in its progress the story of how two great fortunes were made. James J. Hill, president of the Manitoba system, is to-day rated at \$15,000,000, at least nine-tenths of which was the direct outcome of events and

transactions which figure in this lawsuit. Commodore sen died worth about \$4,000,000, fully one-half of which came through the same channel. J. P. Farley is the man who for nine years has fought through the courts for a division of these enormous gains, only to be told at last that he has no claim upon any part of the millions.

It was in 1873 that Farley was appointed receiver of the bankrupt concern, known as the First Division of the St. Paul and Pacific Railroad, whose bonds were mainly held in Holland. Default in interest payments led to the appointment of a re-ceiver. At its first hearing in the United States Court Farley was knocked out, but on appeal to the Supreme Court the finding was reversed and the case ordered to be tried

on its merits.

The final hearing and argument took place before Judge Brewer last winter, and after holding the matter under advisement for eight or nine months he now finds in favor of the defendant's, holding that Farley's statements were untrue. To fight Farley's claim has cost James J. Hill fully half a million dollars. He had purchased all of Kittsen's Manitoba holdings some time before the old Commodore died, but this did not prevent the Kittsen heirs from being sadly embarrassed

Again Upon the Stand-The Facts Elicited. NEW YORK, September 13 .- In the Ives trial to-day the cross-examination of Treasurer Short was resumed. The witness testified that immediately after the adjournment yesterday he went to the room of the District Attorney and there met Mr. Woodruff and a Mr. Smith, a former clerk of Ives & Co., but nothing was elicited from the witness as to what took place there. In the evening, at the Fifth Avenue Hotel, he said he had conversed some time with R. D.

Marshall, counsel for the Cincinnati, Hamilton and Dayton road, F. H. Lawrence and Ernest Zimmerman.
The Assistant District Attorney then brought out the fact that the question re-lating to Ives and Staynor's acquittal last spring was not because the acts alleged were not committed, but because they were out of the jurisdiction of the State of Ohio. Reverting to the 60 certificates he brought out the fact of their signature by the witness at Ives' instance, of his calling upon Judge Hoadly to inquire as to the propriety of his signing them in blank and of Judge Hoadly stating it was all right, as it was under order from a superior officer. Con-cerning the subsequent issue of bonds Mr. Short said he did not know they were sold, but believed they had been, a credit having

been made of \$2,611,342 in a letter from Ives & Co., at New York. This letter was The deposit account between Ives & Co. which arrived Thursday evening, did not nd the Cincinnati, Hamilton and Dayton reach her dock until to-night. Some of the road was then thoroughly gone into to-gether, with the amounts placed to that firm's credit by Treasurer Short. Once he had a telegram from Stavnor to remit \$250 .-000 to New York, which the witness did. At various times he drew on the smaller roads controlled by the Cincinnati, Hamil-

ton and Dayton, and sent the money to

A Husband Who Got His Whiskers Pulle ! for Winking at a Girl. Brooklyn Citizen.1 An interesting incident took place on an elevated train a few nights ago. At one of the Broadway stations a middle aged man and a woman, apparently his wife, entered the train. At the next station another woman got on and took up a position, facing the married couple. She had not long been on the train before the man's glances caused her to smile, and he did likewise. They were carrying on a flirtation when the man's wife discovered it, and after scowling at the woman, caught hold of her husband's mustache and gave it a

Still Counting the Cost of the Cyclone's Ravages Both on Sea and Shore.

Ocean vessels are beginning to arrive in New York harbor with wornout crews aboard, glad once more to set foot on land. The reports of the work of the cyclone still indicate more damage done both in sea and ISPECIAL TELEGRAM TO THE DISPATCH.

literally stormtossed sailormen, who reached the harbor to-day. Scare a man among them but had a tale to tell of the battered hulls, broken spars and torn sails and of the fearful violence of the hurricane. All agree that the sea was the ugliest they son of the year. To Captain Jos. McKee, of the Clyde Line steamer Yemasee, belongs the largest measure of praise, for he brought the sinking Norwegian bark Alsylva, at 12 Baracoa; Captain Kemble, of the steamer

Lively Little Quarrel. ST. CLOUD, MINN., September 13 .- A lively church row between the German Lutherans and German Evangelicals, who have heretofore held meetings in the same church, terminated in a free fight last evenipg, when the Lutherans found the Evangelicals had possession of the building.
Julius Poepke, one of the disturbers, was
fined \$10 this morning.

More arrests will probably follow. The
matter has been placed in the hands of a
judge for adjustment, as both parties claim
the right to the building.
